4. MATERIAL CHANGES:

No material changes and commitments affecting the financial position of the Company have occurred between the end of the financial year of the Company to which the financial statement relates and the date of the Board Report, other than the effects of global pandemic on business

COVID 19: A GLOBAL PANDEMIC :

As a part of its many initiatives to fight this global pandemic, the Indian Government imposed a nation-wide 21-day complete lockdown from 25th March, 2020. Prior to that few states had already started imposing lock-downs. As a result,

our pan India activities were impacted from very beginning of March and finally came to an abrupt halt. .

The financial impacts of the COVID-19 outbreak will depend on facts and circumstances, including the degree to which a company's operations are exposed to the impacts of the outbreak. In our case, we provide service to telecom companies pan India mostly where telecom assets are located. The COVID-19 pandemic had a profound impact on our Company.

During the lock-down there was a large scale stoppage in physical Telecom Implementation activities, while man-power supply staff could continue on work-from-home basis. The Company being under essential sector, was permitted to commence operations in April, 2020 in few states with joint effort by our team and the customer companies. However, the initial productivity was very low. While operations slowly came back to normal, there was a substantial loss of revenue in first quarter. The recovery was also slower than anticipated. The entire country and various states kept grappling with Covid 19 resulting in varying restrictions across various states making it impossible for our work to continue with smoothness or certainty. And before the country could really come out of Covid 19 effect, the second wave hit even more fiercely though the deeper impact was once again towards the end of the year. Overall, it was a struggle during the year and a 30-40% decline in business activity for the year as compared to the immediately preceding year.

On the positive side, the Company did extensively utilise the lockdown period to review and upgrade the internal systems, procedures and policies, for training sessions and webinars for the workforce at all levels. The Company has a robust ERP system in place and there has been no significant impact on financial controls and reporting. None of the assets of the company have been impaired. There is no significant impact on the financial statements calling for any adjustments therein. And there is absolutely no doubt on the ability of the Company to continue as a going concern

Our Company has also pro-actively taking measures to offset the business losses during lockdown in the current financial year. With strategic management and strict controls, the Company could still manage to achieve positive results in terms of reasonable net profits despite tremendous fall in Turnover.

Going forward, the Company continues to remain bullish about the future outlook and continues to stay committed to increasing business. The second wave did once again disrupt operations in certain parts of the country during Mar - May '21. However, the lockdowns were not that severe nor was the impact on the business. The vaccination drive is also expected to benefit the fight against COVID-19 tremendously. The bullishness is of course dependent on the COVID-19 situation continuing to improve and the economic situation also remains stable. However, given the uncertainty associated with the nature and duration of the pandemic, the impact may be different from that estimated as at the date of approval of these financial statements. But the Company firmly believes that in the subsequent year it will be able to continue to manage the situation without impacting the business substantially and bring the business and profitability to pre-covid levels.

The following measures were taken by the Company to mitigate the risk of COVID-19 to its business operations:

1. The Company invoked its Risk Management Policy Framework quite early to minimize the impact on its employees and ensured that the Company remains operational and that recovery time objectives are met.
2. The Company proactively framed and implemented 'work from home policy' to ensure that employees stay safe and business remains operational.

Appendix A to Independent Auditors' Report**Further description of Auditor's responsibilities for audit of financial statements**

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**"Annexure – B" to the Independent Auditor's Report
Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of
Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of **ACCORD SYNERGY LIMITED** ("the Company"), **as on 31st March, 2022** in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Company are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Accord Synergy Limited : VADODARA

Notes Forming Part of the Financial Statements for the Year Ended 31st March, 2022

Note 1: Company Overview:

Accord Synergy Limited ("the Company") was incorporated as 'Accord Synergy Private Limited' on 19th June, 2014 under the provisions of the Companies Act, 2013. The Company was converted into a public limited company as Accord Synergy Limited in February, 2017. Subsequently, the Company came out with an SME IPO in June 2017 and has been a listed entity since July 2017.

The Company primarily enters into contracts with large telecom service providers such as Nokia Solutions and Networks India Pvt. Ltd. and Samsung India Electronics Pvt. Ltd. for telecom implementation activities in different states of India for telecom companies like Vodafone, Idea, Airtel, Jio etc. resulting into nation-wide operations. In a short span the Company has achieved remarkable scale of operations and good profitability though the COVID-19 has had its impact in past two years.

From the preceding year, the Company has also forayed into Civil Works Services too. However, owing to Covid 19 this is still in a nascent stage and is expected to increase in significance in coming years.

Note 2: Significant Accounting Policies:

I. Method of Accounting :

The Financial Statements are prepared on accrual basis of accounting, following historical cost convention, in accordance with the provisions of the Companies Act, 2013 ('the Act'), accounting principles generally accepted in India and comply the accounting standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The Accounting Policies have been consistently applied by the Company and are consistent with those in the previous year.

II. Use of Estimates:

Preparation of the financial statements in conformity with Indian GAAP requires the management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. Management believes that the estimates made in the preparation of the financial statements are prudent and reasonable. Actual results could differ from those estimates. Any revision of accounting estimates is recognized prospectively in current and future periods.

III. Current/Non-Current Classification:

Schedule III to the Act requires assets and liabilities to be classified as either Current or Non-current.

An asset is classified as current when it satisfies any of the following criteria:

- (i) It is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle;
- (ii) It is held primarily for the purpose of being traded;
- (iii) It is expected to be realized within twelve months after the reporting date; or
- (iv) It is cash or a cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

- (iii) It is due to be settled within twelve months after the reporting date; or
- (iv) The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Terms of a liability that could, at the opinion of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

IV. Revenue Recognition :

- (i) Revenue is primarily derived from manpower supply and installation work of telecom implementation activities with fixed price as determined in Contract agreement and is recognized on accrual basis.
- (ii) Revenue for Manpower Supply is based on billing at the end of every month at contracted rates and is recognized accordingly.
- (iii) Revenue from installation and commissioning activities is recognized on completion of jobs as per purchase orders after final certification by the vendor which is when the bills are usually raised. In few cases where jobs are completed and the revenue is reasonably certain but bills are pending to be raised and are also approved by customers before the date of financials, the related revenue is recognized as "Unbilled Revenue "as at the end of the year.
- (iv) Revenue from Civil Works Contracts are recognized on the completion of identifiable and significant portions of the Contracts which fulfill the criteria for billing the same to the customers.
- (v) Other items of incomes are accounted on accrual basis (depending on certainty of realization) and disclosed under the head "Other Income".

V. Fixed Assets :

Fixed Assets are stated at their cost of acquisition less accumulated depreciation. The cost of acquisition includes freight, installation cost, duties, taxes and other incidental expenses, identifiable with the asset, incurred during the installation / construction stage in order to bring the assets to their working condition for intended use.

49 IMPACT OF COVID - 19

The Covid-19 has been a global pandemic since March, 2020 and India has been no exception and has been affected too. The Central and State Governments have taken various initiatives to mitigate the risks including precautionary lockdowns and propaganda and assistances in safety measures

The First Wave in 2020 caused major disruptions due to impact of lockdowns which resulted in loss of business activity during FY 20-21. Before the Company could fully recover, the second wave that hit in the first part of the FY 2021-22 and was quite severe in terms of health crises. Though the lockdowns and controls were less severe, the business recovery was also slower than anticipated. The entire country and various states kept grappling with Covid 19 resulting in varying restrictions across various states making it impossible for our work to continue with smoothness or certainty specially in the physical telecom activities though the man-power supply staff could continue on work-from-home basis which ensured some continuity, However, overall it resulted in further 30-40% drop in top-line of the Company.

Fortunately, the Company had diversified to Civil Contract Work in last year which continued during the year adding some relief to the topline and substantial relief to bottom line. As the segment results would indicate, there was a huge loss from telecom activities which was reduced only due to contribution by Civil Work Segment.

While there was a negative result for the year, the Company has a robust ERP system in place and there has been no significant impact on financial controls and reporting. None of the assets of the company have been impaired. There is no significant impact on the financial statements calling for any adjustments therein. And there is absolutely no doubt on the ability of the Company to continue as a going concern. The Company continues to have robust financial controls to mitigate the business risks and at the same time continues to deploy measures to mitigate the health risks

The further financial impacts of COVID-19 will depend on the circumstances including the degree to which our operations are exposed to the impacts of the outbreak. In our case, we provide service to telecom companies pan India mostly where telecom assets are located. Hence, COVID-19 pandemic situation will always have a profound impact on our Company. However, the positives are that with the strong vaccination drive in place, the Third Wave in later part of FY 2021-22 did not have any business impact at all.

Our Company has also pro-actively taking measures to off.set the business losses during lockdown in the current financial year. With strategic management and strict controls, the Company could still manage to achieve positive results in terms of reasonable net profits despite tremendous fall in Turnover.

Going forward, the Company continues to remain bullish about the future outlook and continues to stay committed to increasing business with pro-active and strategic business management and strict controls, The bullishness is of course dependent on the COVID-19 situation continuing to improve and the economic situation also remaining stable. However, given the uncertainty associated with the nature and duration of the pandemic, the impact may be different from that estimated as at the date of approval of these financial statements. But the Company firmly believes that in the subsequent year it will be able to manage the situation without impacting the business substantially and bring about, not only an increase in business compared to this year, but also bring it back to profitability
